1   10.   The method of Claim 2 including:

2   operating a processor after power-up of the touch screen digitizing system to

3 prompt a user to sequentially touch first and second permanently marked points on the touch

4 screen;

5   operating the processor to digitize the touched first and second permanently

6 marked points and compare coordinates of the digitized touched first and second points;

7   operating the processor to compute correction factors from differences between

8 coordinates of the touched digitized first and second points and stored corresponding

9 coordinates, respectively; and

10   operating the processor to correct coordinates of points on the touch screen which

11 have been touched and are being digitized.

REMARKS

In the Office Action the examiner rejected Claims 1-4 and 9 under 35 U.S.C. §102(e) as

anticipated by the Kerth et al. reference. The examiner also rejected Claim 5 under 35 U.S.C.

§103 over the Kerth reference. The examiner also rejected Claims 6 and 7 under 35 U.S.C. §103

over Kerth in view of Flowers. The examiner rejected Claim 8 under 35 U.S.C. §103 as
